

CERTIFICATE OF MEMBERSHIP

Hiroshima University of Economics

This certifies that the above institution has been a founding member of the Network of International Business and Economics Schools, established in May 1996 at Tours, France.

We believe, that a global network should be based on the following principles. First, each school respects the other network members and regards them as having high-quality students, faculty and programs. Second, a basic trust for network partner schools exists and, as such, open, honest and collaborative sharing occurs. Third, we assume that synergy will be a result of actively participating in the network.

Professor Dr. Thomas Cleff
Secretary General
